

JHPC- JOINT HOSPITAL PLANNING COUNCIL- HELPING PROVIDE EXCELLENCE IN EMS CARE

Elizabeth Oliver Hall 2nd floor 200 Mill Hill Ave Bridgeport CT 06610 (203) 384-3911 Fax (203) 384-3639

To all ambulance services:

All of you are aware that we are requiring services to have the Lifepack 12 12 lead ECG units on your ALS Units By 2005. At this time we are also requiring that the units ordered also have Pox and ETco2 capability. It is a aid to better patient care and hopefully by demanding it now we save everyone the problems that come with ordering such equipment as separate units. over time, and ensures uniform ability of level of care and equipment within the JHPC system

Thank You

Antonio Napolitano MD

Medical Director Joint Hospital Planning Council Bridgeport Hospital

Attending Bridgeport Hospital Emergency Department

Associate Professor Yale University Emergency Medicine program
