

**JHPC- JOINT HOSPITAL PLANNING COUNCIL- HELPING PROVIDE EXCELLENCE IN EMS CARE**

**Elizabeth Oliver Hall 2nd floor 200 Mill Hill Ave Bridgeport CT 06610 (203) 384-3911 Fax (203) 384-3639**

To all ambulance services

We are requiring that all ambulances carry some type of device to confirm placement of endotracheal tubes placed in the field. By 2005 we expect that all services will have ET CO2 with their lifepack 12's. Until that occurs the minimum would be the bulb syringe . We expect compliance with this requirement;

Any questions please contact myself, John Pelazza or Jane Winters

Thank You

Antonio Napolitano MD
